

Delfland planting guide 2017

You can pre-order trays through the year, crops are available in the shade (green) cells. Delivery week is shown by its number along the top.

Order example: if you want a cabbage variety to be delivered to you in the first week of May which is week 18, go to week 18, select cabbage and you should have 5 varieties to choose from.

After sowing, the number of the trays available will be limited and stock may run out.
